

THE LUXURY CONCERT OF GAYNELL ROSE.

Hello, before anything else I salute everyone and I would like you to publish my comment about the concert that take place the past February 26 in the Auditorio de la Ribera , at 7:00pm, A concert of Blues, Jazz AND R%B. Interpreted by an american artist Gaynell Rose and the band of musicians the Flavors. I found that the presentation had excellent quality, the musicians played in a marvelous way and it was a pride to have seen Mexican musicians as Beto Rivera and Pancho López who made the concert even more pleasant. I liked the way in how the artist fastened the atmosphere, a moment arrived when all the spectators were dancing to the rhythm of the music, because of the great energy and passion that she puts in the songs when she interprets them. It was something completely new and different.

I congratulate a lot to those who made possible this presentation and if they return in a future to be presented again I recommend all , that go, it doesn't matter if you don't know English, or that you have never listened jazz songs. It is a concert that has the best quality of artists and you will also pass a very good time. She simply lifts the spirit.
